Dear [redacted]

STAT

STAT

I talked to [redacted] yesterday about training and during the course of the conversation [redacted] stated that installation of the Purchasing package has been delayed until April and possibly May or June. The reason for the delay is presently attributed to IDMS/R instability. However, it was suggested that training proceed on schedule. A few items concerning training are as follows:

STAT

1. DIT will hold AIM Memos for training until OL's contract becomes effective.
2. For public classes, the cost is 1 unit/person/day.
3. To avoid penalties for cancellations in a public class, notification must be made a week in advance.
4. Cullinet requests a 2 week advance notice for public class registration.
5. For private class the charge is 7 credits per day and no limit on number to attend.

Sincerely,

STAT
